

To open the User Accounts tool, open Control Panel from the **Start** menu, and then double click **User Accounts**.

You will need to create a new user account.

To Create a New User Account

1. Click **Create a new account** in the **Pick a task** list box.
2. Type the name that you want to use for the account, and then click **Next**.
3. Select the desired account type, and then click **Create Account**.
4. Give this account a **secure password**.
5. Go back to the **start menu and log out**.
6. Log back on to the new account so you can make changes to your old account

To Make Changes to an Account

1. Click **Change an account** in the **Pick a task** list box.
2. Click the account that you want to change.
3. Select the item that you would like to change:
 - o Click **Change the name** to change the name that appears on the Welcome screen for the account.
 - o Click **Change the picture** to change the picture that is used to represent the user account. You can use any image file on the computer for the user's picture.
 - o Click **Change the account type** to change the account type to increase or decrease the user's rights on the computer. You will want to use limited for your main account. This is the one you want to use all the time.
 - o Click **Create/change the password** to create or change the password for the user and create or change the password hint.

Internet explorer is old and out dated.

Go get you a new browser

Google Chrome can be downloaded from [here](#)

Firefox from [here](#)

Antiviruis programs should be ok to 2015 there are many free version out there.

If you are using Office 2003 it also is no longer supported

For a current free one try these

OpenOffice.org

LibreOffice.org
